Ah, thank you, Elizabeth. I see the point you are trying to make and it is an important one. Kathleen, if it is not too late to do so, please use the attached version as the final draft.

Hi Kathleen,

Kathy and I looked at this together and made just a few very small final tweaks, but think it otherwise looks great. As requested, I also combined our briefing paper with Water's mitigation table. A clean copy is attached for your approval. From our perspective it is ready to send along.

Thank you.

Thanks all. I think this does the trick. Pending any edits from Carter/Kathy, I would like to forward to jared. He is on travel, so I'm not sure when he will get to this, but I would like to tell Cynthia tomorrow that we have something in hand.

Attached is my attempt at keeping in some of our concerns but staying under two pages.
Carter/Kathy – please edit or add if you think I missed key information that in your opinion should be included.

Thanks for pulling this together.

Kathleen,

I have applied your changes with just a few additional small edits to clean things up. A clean copy is attached for your consideration. Jason Brush/Elizabeth Goldmann's table is a separate document at present, but I'm happy to combine them into a single .doc if you think that would be in some way advantageous.

Thank you for your time on this. I hope you have a wonderful weekend!

Team,

Thanks for pulling this together. I like the way the information was presented in the attachment best, so I suggest that be the bulk of the memo – see what I have done. I suggest that for now,
